### Journal of Information and Communication Technology JICT

This vast world has shrunk into a small village. The Global Village! All barriers have been broken down. Worldwide accessibility has become as simple as talking to your neighbor. Doing business across the world is as simple as logging on your computer. The Internet Technology is not just for games, chatting and occasional research anymore, now it is an essential part of everyday life of every one. A business cannot flourish without becoming a global enterprise and becoming active part of the Global Village. Information and Communication Technology is the vehicle providing the access to the Global Village.

The technology is changing very rapidly because of the advanced features of ICT, AI, Telecommunication, e-commerce, IS, Robotics, Cyber Security, Data Mining, Network Storage Technologies, Software and Hardware Technologies.
