Call for Papers

Journal of Information and Communication Technology JICT

This vast world has shrunk into a small village. The Global Village! All barriers have been broken down. Worldwide accessibility has become as simple as talking to your neighbor. Doing business across the world is as simple as logging on your computer. The Internet Technology is not just for games, chatting and occasional research anymore, now it is an essential part of everyday life of every one. A business cannot flourish without becoming a global enterprise and becoming active part of the Global Village. Information and Communication Technology is the vehicle providing the access to the Global Village.

The technology is changing very rapidly because of the advanced features of ICT, AI, Telecommunication, e-commerce, IS, Robotics, Cyber Security, Data Mining, Network Storage Technologies, Software and Hardware Technologies. Now a days the technology becomes obsolete in 12 to 18 months, thus it is imperative for us to keep ourselves updated on the latest developments in ICT or become obsolete and be left out into oblivion. Today the user and the student of ICT must be willing to learn constantly to keep abreast with the technology growth.

JICT is an international Journal of Information and Communication Technology, published by BIZTEK on bi-annual basis. We welcome the submission of articles from researchers, academicians and practitioners in the area of ICT. For instruction to submission of manuscripts, please see the title flap. The papers should be of moderate length for the sake of greater diversity. Please note that submissions should be original contributions and will go through a rigorous evaluation process.

JICT does not charge any fee for submitting, reviewing and/or posting manuscripts before of after acceptance of the article.
